Guest Speaker

Prior to the start of the Organizational Meeting County Legislator Joe Hauryski updated the Board on a series of topics concerning the Town of Wayne.

- County Legislator Hauryski reviewed the Sales Tax Agreement to explain why the sales tax reimbursement the Town of Wayne has received has declined while County revenues have increased. This is primarily due to the fact that the percentage reimbursement is based on assessed property values. The Town of Wayne's assessed values have decreased while the County's assessed values have risen.
- The road works budget projects for 2019 include County Rte. 97 and 114. Rte. 97 will be blacktopped and have new shoulders put in with a budgeted cost of \$526,000. Rte 114 will be blacktopped at a budgeted cost of \$420,000
- It is anticipated that the tax rate for 2019 will remain relatively flat for the third year in a row. This is contingent upon the county receiving the expected funding from New York State to subsidize some of its major programs such as "Raise the Age". If the State changes their position on the funding tax rates could be impacted.
- Steuben County will continue to support the Town of Wayne 2019-20 property revaluation with shared services for the assessor..
- The County will continue to implement 24 by 7 coverage for the Court system.
- New York State grants have been obtained for cable improvements to expand the availability of a high speed internet system. Mr. Hauryski stated where the expansions will be needs to be researched.
